

**KLIMA
FOLKE
MØDET**

THE PEOPLE'S CLIMATE CONFERENCE (KLIMAFOLKEMØDET) IN THE CITY OF MIDDELFART IS AN ANNUAL EVENT THAT PUTS CLIMATE AT THE TOP OF THE AGENDA FOR THREE DAYS IN EARLY SEPTEMBER.

The purpose of Klimafolkemødet is to inspire action - we wish to inspire decision makers, companies, organisations and all our visitors. The headline in 2021 was "Climate Action Together".

It is our ambition that Klimafolkemødet reaches a status of a national event where the climate challenge is taken seriously and where common solutions arise. In 2022, our ambitions are even bigger. We want to create a ripple effect in international waters by adding an international track to Klimafolkemødet.

Klimafolkemødet is a non-commercial event, it is entirely free to participate. Klimafolkemødet sits on three legs: A democratic, a political and a professional leg.

The recently finished 2021 Klimafolkemøde was the largest version so far, where 8.000-10.000 people visited Middelfart.

In 2019, the Region of Southern Denmark and the Municipality of Middelfart entered into a strategic cooperation agreement to elevate Klimafolkemødet in Middelfart from a local event to a national event. The purpose is to find solutions to the climate challenge and inspire citizens, decision makers, companies and organisations to take action.

Klimafolkemødet is hosted by a number of organizers who contribute with different content for the programme.

Klimafolkemødet 2022 takes place on September 1-3 2022 at KulturØpladsen in Middelfart.
